EXPERIENCE

Software Developer (RnD Project) — Trafficore

Feb 2026 — May 2026

Atharva College of Engineering (R&D Cell)

Mumbai, India

- Redesigned a hardcoded prototype into a modular Node.js/Express backend, reducing code duplication by ~40% across 4 core services while integrating MQTT telemetry and PostgreSQL storage.
- Implemented Clerk authentication and a WebSocket (Socket.io) communication layer, synchronizing 3 real-time dashboards with sub-300ms average event latency.
- Created a React.js application with Role-Based Access Control (RBAC), delivering 3 responsive dashboards for Hospital, Admin, and Ambulance operations. Configured Raspberry Pi as an MQTT publisher and broker, enabling bidirectional real-time communication with 2 ESP32-based traffic signal controllers.

Core Team & Cloud Team Member

Sep 2025 — Present

Google Developer Groups OnCampus ACE

Mumbai, India

- Deployed a Flask-based SMTP service on Google Cloud Platform (GCP) for automated event communication and certificate distribution, configuring Nginx reverse proxy with SSL via Certbot, containerizing with Docker, and exploring infrastructure automation and monitoring via Ansible and Prometheus.
- Mentored 12 of 15 assigned participants (80% completion rate) during Cloud Study Jam 2025, resolving GCP Console issues as part of a college-wide program where 75+ of 180+ registered members completed overall.
- Served as technical judge and mentor for TechSprint, an AI-focused hackathon with 100+ teams and 250+ participants, and presented a WebXCloud workshop on web development and cloud/GCP fundamentals to 60–80 attendees.

PROJECTS

Full Stack Authentication-as-a-Service Platform

Oct 2025 — Dec 2025

React 19, Vite, Node.js, Express, MongoDB, Redis, JWT, Bcrypt, Shadcn UI, Radix UI

[GitHub](#) | [Live](#)

- Built a multi-tenant Authentication-as-a-Service platform inspired by Clerk/Auth0, letting developers register, create projects, and generate scoped API keys to add authentication to their own apps.
- Secured the backend with JWT (HTTP-only cookies), bcrypt hashing, and RBAC with granular permissions, plus Redis caching, rate limiting, session management, and device-info tracking to prevent abuse.
- Built OTP-based email verification and password reset via Nodemailer on a layered Controller-Service-Model architecture, with a React 19 + Vite developer dashboard deployed live on Vercel.

GDGC Designathon 2.0 Platform

Nov 2025 — Jan 2026

React, TypeScript, Tailwind CSS, Framer Motion, GSAP, Vercel

[GitHub](#) | [Live](#)

- Developed responsive frontend components for a hackathon platform that supported 700+ users and 240+ team registrations during a live event.
- Optimized registration and onboarding workflows to handle high traffic while maintaining smooth performance.
- Enabled continuous deployment by integrating CI/CD workflows using GitHub and Vercel within a cross-functional team.

SKILLS

Languages:	JavaScript, TypeScript, Python, C++, SQL.
Frontend:	React.js, Tailwind CSS, HTML5, CSS3, Shadcn UI, Framer Motion, GSAP.
Backend:	Node.js, Express.js, REST APIs, JWT Authentication, WebSockets, MQTT, Nodemailer.
Databases:	PostgreSQL, MongoDB, Prisma, Mongoose.
Cloud & DevOps:	Google Cloud Platform (GCP), Docker, Nginx, Prometheus, Ansible, CI/CD.
Tools:	Git, GitHub, Postman, Linux, Vercel, n8n.

ACHIEVEMENTS

- Led HackRobo 1.0 (National Level Hackathon) and built an IoT-based search & rescue bot; ranked 9th out of 40+ teams.
- Led a team in SIH 2025 Hackathon, securing 16th place among 50 participating teams.
- Recognized as part of the GDGC Web Team (Best Team of the Year) for event platform development.
- Earned 25+ Google Cloud Skill Badges across cloud computing technologies ([Cloud Skills Profile](#)).
- Solved 200+ coding problems on [CodeChef](#) and [LeetCode](#).

EDUCATION

B.E. in Electronics & Telecommunication Engineering

CGPA: 6.32/10

Atharva College of Engineering, Mumbai

May 2027

Coursework: Data Structures & Algorithms (DSA), Operating Systems (OS), Database Management Systems (DBMS), Computer Networks (CN), Artificial Intelligence & Machine Learning
